

High Output 50Hz Perkins Diesel Generator Portable Diesel Power Generator 1000L

Basic Information

- Place of Origin: China
- Brand Name: Minlong

Product Specification

- Cooling System: Water Cooled
- Warranty: 1 Year
- Starting System: Electric
- Fuel Type: Diesel
- Fuel Tank Capacity: 1000L
- Engine Brand: Perkins
- Control System: Automatic
- Noise Level: 75dBA
- Highlight: **50Hz Perkins Diesel Generator ,
High Output Perkins Diesel Generator ,
1000L Portable Diesel Power Generator**

Product Description:

Introducing the Perkins Diesel Generator

The Perkins Diesel Generator is a heavy duty and durable diesel electric generator set, designed for long-term reliable power generation. Featuring an advanced Perkins engine, this generator is capable of producing up to 1000kW of power output, making it an ideal choice for large-scale applications. The Perkins Diesel Generator also features an automatic control system for reliable operation and comes with a built-in size of 2500mm X 1500mm X 2000mm and a weight of 3000kg.

The Perkins Diesel Generator is built to last, making it the perfect choice for heavy duty and reliable power generation. With its advanced diesel electric generator, advanced control system, and heavy duty design, the Perkins Diesel Generator is the ideal choice for power generation needs.

Features:

Product Name: **Perkins Diesel Generator**

Frequency: **50Hz**

Noise Level: **75dBA**

Engine Brand: **Perkins**

Control System: **Automatic**

Fuel Tank Capacity: **1000L**

High Output Diesel Generator

Advanced Diesel Electric Generator

Technical Parameters:

Item	Specification
Speed	1500rpm
Cooling System	Water Cooled
Power Output	1000kW
Fuel Tank Capacity	1000L
Frequency	50Hz
Dimensions	2500mm X 1500mm X 2000mm
Control System	Automatic
Noise Level	75dBA
Fuel Type	Diesel
Starting System	Electric

Applications:

Minlong Perkins Diesel Generator is a heavy duty diesel generator with superior performance. It features a high output and a fuel tank capacity of 1000L. It is powered by a 400V voltage, and is capable of running on diesel fuel. With an electric starting system, it is reliable and efficient in providing a steady source of power. And you don't have to worry about any quality issues, as it is backed by a one-year warranty.

Minlong Perkins Diesel Generator is widely used in many industrial and commercial applications. It is a perfect solution for both onshore and offshore applications, and is ideal for powering factories, laboratories, hospitals, banks, and other large-scale businesses. It can also be used as a backup power source in case of any emergency or power outage. With its premium quality and high output capabilities, Minlong Perkins Diesel Generator is the perfect choice for those who need a reliable and powerful source of energy.

Customization:

Perkins Diesel Generator

Brand Name: Minlong
Place of Origin: China
Fuel Type: Diesel
Starting System: Electric
Cooling System: Water Cooled
Voltage: 400V
Power Output: 1000kW

Minlong Perkins Diesel Generator is renowned for its high output and reliable performance. It features a Perkins diesel engine, electric starting system, water cooled cooling system and voltage of 400V. This Perkins diesel generator set is capable of producing 1000kW of power output.

Support and Services:

Perkins Diesel Generators provides technical support and services for all our products. Our experienced team of engineers and technicians are available to offer assistance and advice with any technical queries you may have. We offer 24/7 technical support so that you can get the help you need when you need it. We also provide on-site maintenance and repair services, and can arrange for replacement parts to be shipped quickly and efficiently. We are committed to providing excellent customer service and delivering quality products and services.

Packing and Shipping:

Packaging and Shipping for Perkins Diesel Generator

At Perkins, we are aware that the safe and secure packaging and shipping of your product is essential for your satisfaction. It is for this reason that we have a team of dedicated professionals that specialize in packing and shipping our generators.

Our packaging and shipping process begins with an assessment of your product. We evaluate the size, shape, and weight of the generator and select the appropriate size of the box. The box is then reinforced with additional packing materials and secured with extra-strong tape.

We then transport your generator to our shipping facility, where it is inspected to ensure that the product is secure and ready for transit. Our professionals then assess the most suitable shipping service for the generator, based on your needs and preferences.

Once the shipping service has been chosen, we securely package the generator and prepare it for shipment. We also provide tracking information so that you can easily monitor the progress of the shipment.

At Perkins, we take the extra steps necessary to ensure that your generator is delivered to you in a safe and secure manner.

FAQ:

Q&A about Perkins Diesel Generator

Q: What is the brand name of Perkins Diesel Generator?

A: The brand name of Perkins Diesel Generator is Minlong, which is from China.

Q: What is the rated capacity of Perkins Diesel Generator?

A: The rated capacity of Perkins Diesel Generator depends on the engine and alternator you choose.

Q: What is the output type of Perkins Diesel Generator?

A: Perkins Diesel Generator can provide single-phase, three-phase and direct-current output.

Q: Is Perkins Diesel Generator noiseless?

A: Perkins Diesel Generator is equipped with advanced noise reduction technology, which can reduce noise to meet the requirements of environmental protection.

Q: What is the fuel consumption of Perkins Diesel Generator?

A: The fuel consumption of Perkins Diesel Generator varies with different engine models.
