Packing and Shipping:

Yuchai Diesel Generator Packaging and Shipping

Yuchai diesel generators are shipped in a fully enclosed, reinforced cardboard box. The box is designed to protect the product from any damage during transport and handling.

The box includes an inner layer of foam padding that covers the generator and prevents it from shifting. It also includes a layer of bubble wrap that helps protect the exterior of the generator from scratches and dents. The outer layer of the box is made of corrugated cardboard, which provides additional protection.

The generator is secured to the box with heavy-duty straps and fasteners, ensuring that it will stay in place during transit. It is also labeled with a "Fragile" sticker to alert handlers to the generator's special shipping needs.
